BAL BHARATI PUBLIC SCHOOL PITAMPURA

CIRCULAR

Dear Parents,   November 03,2017

Greetings from Bal Bharati Public School, Pitampura.

Technology has become an integral part of our lives. From mobile applications that make us more productive to entertainment and gaming solutions that keep us engaged, technology is enhancing all facets of our existence. Every year, this trend is exponentially increasing and by all estimates will continue to do the same for the foreseeable future.

As you are aware, we have always believed in being the frontrunner in adopting technology to enhance learning experience of our students. We have introduced Java Coder Course from 23rd October, 2017 in the regular computer blocks for **class VII** in the same spirit.

It is an online interactive course which provides the student with ample exercises to hone their skills. Interested students may access all the course contents from home as well. This will allow them to learn at their own pace and pursue different study options based on their interests.

Please encourage your child at home to regularly login to the course on ***www.learnslate.com*** using the assigned username and password to enhance better learning.

We look forward to your continued patronage.

Regards

(Ms. Meenu Goswami)
Principal
