

**BAL BHARATI PUBLIC SCHOOL, PITAMPURA, DELHI**  
**SUBJECT-EVS(2020-21) TOPIC- ANIMALS AROUND US**  
**LESSON PLAN-1**

**NAME:**\_\_\_\_\_ **CLASS III:**\_\_\_\_\_ **DATE:01.04.2020**

**Introduction to the world of animals**

We see all kinds of animals around us . It is difficult to imagine our world without them . Have you imagined why they look different from each other? It is because all animals have special features that make them look different from each other. Let us explore this amazing world of animals and find some of these special features.

**Highlights of the lesson**

❖ **Movements in animals**

**Recap/ previous knowledge**

- Animals are found in large variety of shapes and sizes.
- These animals move from one place to another in search of food, shelter and to safe guard themselves.

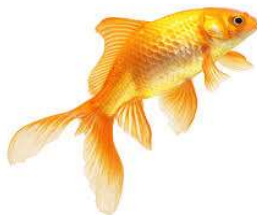

**MOVEMENT IN ANIMALS**

**SNAKE**

Snakes and earth worms **wriggle** on the ground.

**FISH**

Fish moves with the help of **fins** and tail.

**COW**

Land animals like cow and lions have four legs to move.

## CATERPILLARS& SQUIDS

Small animals like caterpillars and squids **crawl** on the ground with many leg .

## BIRDS

Birds have two legs to perch on branches and to **hop** and **walk** on the ground . They also have wings to **fly**.
