Ques1. Read the passage given below and answer the following questions:-

Mini, Jojo and Bela had just shifted to their new house. It was on the outskirts of the city. Beyond it there was a forest. There was a lot of excitement the day they shifted. The truck came and went. There were lots of workers helping their parents to unload all their furniture, boxes and cartons. Mother ordered some tea and snacks for everyone. After that, the workers left. Then the three children began to explore the house. Mother had given a small room to Jojo and a slightly bigger one to be shared by Mini and Bela. Their father called out to them to come and help with the unpacking. Willingly they went downstairs to help. Furniture was pushed into place first. Then the boxes and cartons were carried into the rooms where they had to be opened and unpacked. Clothes were folded and arranged in cupboards. Mother got busy organizing things in the kitchen, after father had set up the cooking plate for her. Then, while father arranged his study room, the children tidied their own rooms, and put away the cartons. Father would take the cartons out later to be given away. By evening everyone was tired. But they were happy that their home was looking comfortable now. As Mother laid dinner and called all of them to eat, the children decided that tomorrow they would begin to explore the forest next to their house. That would be really exciting!
