

**NAME** \_\_\_\_\_ **CLASS III** \_\_\_\_\_

**DATE - 21/04/2020**

### Introduction

*Based on what they eat, animals are of four types:*

- **Herbivores**
- **Carnivores**
- **Omnivores**
- **Scavengers**

**Herbivores** are animals that eat only plants.

*They eat grass, leaves, fruits, seeds, grains and nuts.*

*A squirrel eats nuts.*

*A caterpillar eats leaves.*

**Carnivores** are animals that eat meat or flesh of other animals.

*Lion feeds on other animals.*

## CARNIVORES

Animals that eat flesh of other animals

They have sharp and pointed front teeth

Their teeth help them to tear flesh

Reference :-<https://youtu.be/p3oemJy0ZZ8>

**? DID YOU KNOW ?**

Carnivores are also called predators and the animals they kill are called prey.
