

NAME - _____ CLASS V/ SEC _____ Date – 29.04.2020

Dear children, let us try and recall what we have learnt....

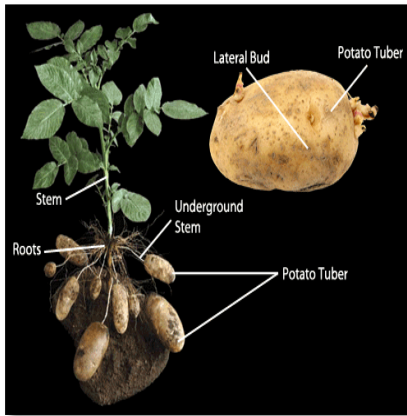

Let's Recall

(not to be copied in the notebook)

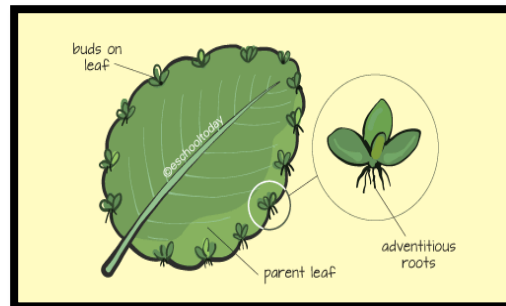

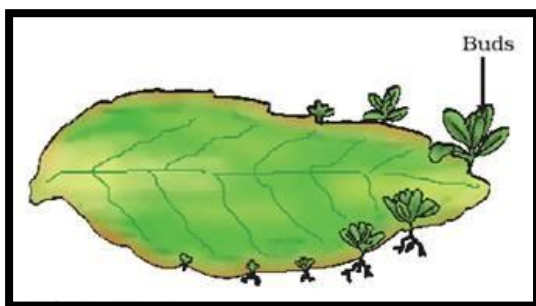

- 1) **Plants** play a very important role in our lives as they **produce a number of things useful** to us like oxygen, food, wood, fibre etc.
- 2) The process of **making more of one's own kind** is called **REPRODUCTION**.
- 3) **Living things reproduce** so that their **species do not die out**.
- 4) Like all other living things, **plants also reproduce**.
- 5) **Plants reproduce** in two ways – a) **by seeds**
b) **by vegetative plant parts like root, stem, leaves**
- 6) **Flower** is the **reproductive part** of the **plant** as it forms the fruit which has seeds inside it that give rise to a new plant.
- 6) When a **plant reproduces through its vegetative parts**, it is termed as **VEGETATIVE REPRODUCTION**. Examples: -
 - a) **ROOT** – carrot, radish etc

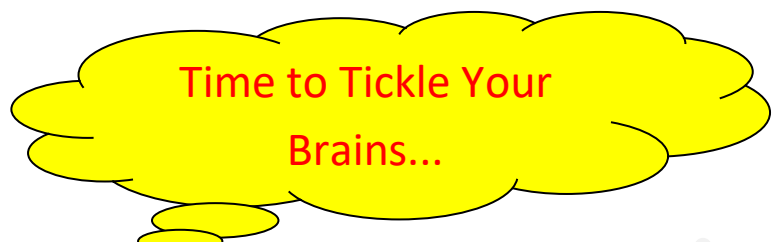

b) **STEM** - potato, ginger etc .

c) **LEAVES** – Bryophyllum, begonia etc.

d) **BULBS/BUDS** – prickly pear, cacti, onion, garlic etc.

Let's Practise

Please note: Only the correct answers to all questions are to be written in notebooks

- c) Living things reproduce to make sure that I don't die out. I am their _____.
- d) I am a seed used to obtain cooking oil _____.

ENJOY THIS FUN TIME WITH YOUR LOVED
ONES!!!

Rhyming Word Game

A fun game that can be played anywhere, this rhyming game is good for vocabulary development and can be played by any age. Frequently, the game begins spontaneously when a person simply says a word that rhymes with one said by another person. For example, someone may say, "Don't worry. I fed the cat." A person responds, "Bat!" and other players take turns saying rhyming words. You must say words in order and are "out" if you repeat a word that has already been said. The goal is saying rhyming words with the same vowel sound, so if a person said, "Cat!" following possible words include, bat, rat, flat, sat, etc.
