**Topic :- Odisha Pattachitra / Kalamkari Art Form**

This week let us work on the various Art forms prevalent in India. Along with the drawings we will also learn something more about these forms.

1. Odisha Pattachitra are the folk paintings of Orissa based on life of Lord Krishna.
2. Kalamkari belongs to Andhra Pradesh. In this form of painting pen is used and it is generally done on textile.

**Task:- Create a beautiful wall hanging using any one of the given art forms.**

**Material required**

- Pencil, eraser, and scale
- Colours/ Crayons and Sketch Pens
- Cardboard pieces that can be taken from old notebook covers
- Ribbons of any colour
- You can use any type of decorative material available at home to decorate your wall hanging.

**Write a few lines on both the folk-art forms given above.**

*You may take reference from the internet also.*

#### **PUZZLE 1**

Offshore oil-drilling operations involve an unavoidable risk of an oil spill but importing oil on tankers presently involves an even greater risk per barrel of oil. So, if we are to lessen the risk of an oil spill without reducing our oil usage, we must invest more in offshore operations and import less oil on tankers.

**Which of the following, if true, seriously weakens the above argument?**

- A. Importing oil on tankers is currently less expensive than drilling for it offshore.
- B. Tankers can easily be redesigned so that their use entails less risk of an oil spill.
- C. The impact of offshore operations on the environment can be reduced by careful management.
- D. Oil spills caused by tankers have generally been more serious than those caused by offshore operations.

#### **PUZZLE 2:**

**Direction for the question:**

**The question is based on a passage or a set of conditions. Select the best answer from the choices given below:**

In contrast to the earlier predictions, demand for sugarcane has not risen in recent years, yet, even though production amounts and price have also been stable during the last 3 years. Last year, sugarcane growers increased their profits by more than 10% over the previous year's level.

Any of the following statements, if true, about last year, helps explain the rise in profits EXCEPT:

- A. Sugar factories that are large consumers of sugarcane increase their production of sugarcane-based ethanol, yet their overall consumption of sugarcane decreased.
- B. Rainfall in sugarcane-growing regions was higher than it had been during previous year, allowing the growers to save money on expensive artificial irrigation.
- C. Sugarcane growers have saved money on wages by switching from paying labourers a daily wage to paying them by the amount harvested.
- D. Many small sugarcane growers together formed an association of sugarcane producers and began to buy supplies at low prices.
