

POSTER MAKING

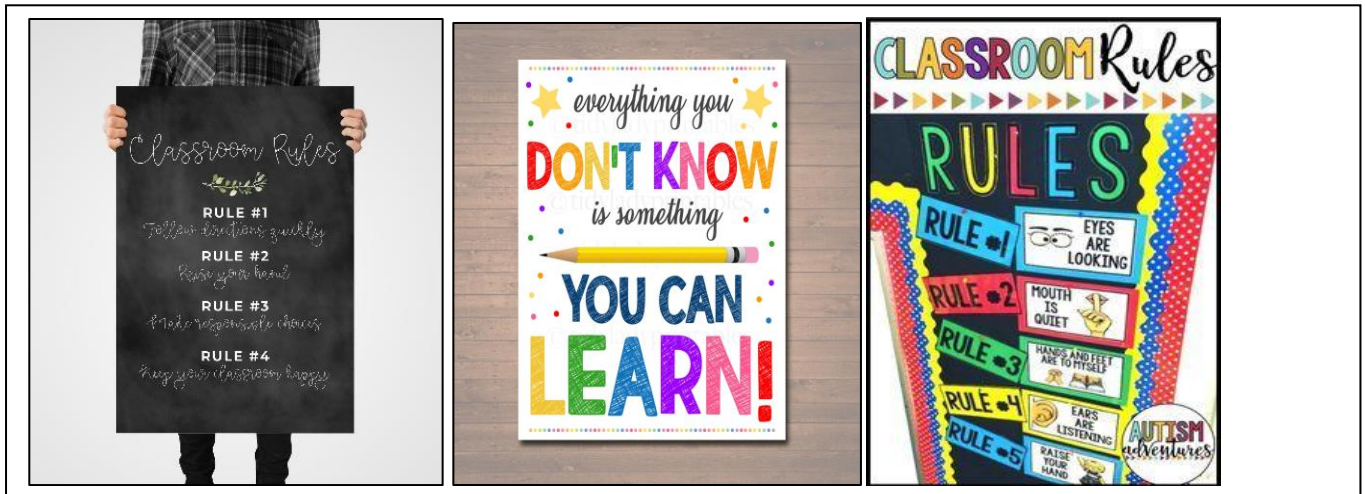

Dear children.... A **poster** is a promotion of an idea, product or event put up in a public space for giving a message to a large number of people. Poster making is an activity that is common in many classrooms which combines language with Art and Craft. The best advantage of poster making is that it encourages creative thinking and detailed research work. It provides students with an opportunity to learn by doing as they represent the key points visually with the help of very few words. Let's look at the given video to understand the basics of Poster-making.

What makes a good poster?

- **Important information should be readable from about 5 feet away**
- **Title is short and draws interest**
- **Word count of about 80 to 100 words**
- **Text is clear and to the point**
- **Use of bullets, numbering and headlines make it easy to read**
- **Effective use of graphics, colour and fonts**
- **Consistent and clean layout , is clutter free**
- **Includes name of the issuing person/ authority**

Now use an A4 sheet to design a poster on the topic : **Classroom Rules**. Make it as attractive as possible and use drawings or cut-outs to illustrate it. (Here are some poster designs for ready reference.)

WORDLY WISE

Write a short paragraph (in 60-80 words) on the topic **'The importance of rules in our life'**. Make use of the HELP BOX (containing all the five words that you have learnt during this week) to express your ideas and feelings on this topic.

(Do this work in the Creative Writing Notebook or on ruled A4 sheets.)

Vocabulary Enrichment

Children, in this section, we have been learning one new word everyday which can be used in place of using 'very' with a descriptive word. Here comes the new word for today:

'very hungry' can be replaced with – **'starving'**

For example: Many labourers are **starving** during this lockdown.

You must try and make use of these words while conversing with others.
