CLASS V/ SEC _____

Date – 14.05.2020

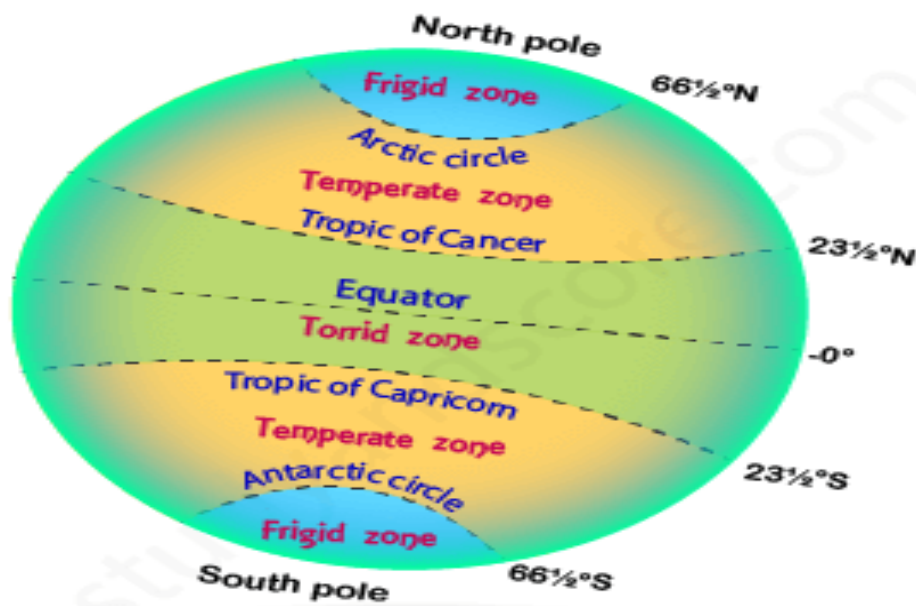

We have learnt about weather and climate in the previous lessons. Let us revise them in today's lesson.

- Weather of a place changes frequently, whereas the climate of a place remains more or less same for a longer duration of time.
- On the basis of the difference in temperature, the world is divided into three Heat Zones.

Let's Revise

ACTIVITY 1 AND 2 ARE TO BE DONE IN THE NOTEBOOK

ACTIVITY 1. Observe the figure given below carefully and answer the questions that follow-

LATITUDES & HEAT ZONES

- Name the zone lying between the Tropic of Cancer and the Tropic of Capricorn.
- What is the degree of the Antarctic Circle?
- Which imaginary line is marked at 0° ?
- Name the two zones between which the Temperate Zone lies.
- Name the two poles near which the Frigid Zone is located.

ACTIVITY 2. Why are the places near the equator hotter as compared to the places near the poles? (take cues from the figure given below and write your answer in around 30-40 words)

LATITUDE

Imaginary horizontal lines east to west of Equator.

The nearer the Equator, the higher the temperatures.

The further from the Equator, the lower the temperatures.

TIME TO OBSERVE

Record the weather conditions for a week and make a note of the observations made in your personal diary.

VOCABULARY ENRICHMENT

Children, we learnt two words yesterday which can be used in place of using 'very' with a descriptive word. The words learnt yesterday were 'morose' and 'valiant'. Here are the two new words for today:

'timid' 'can be used in place of **'very shy'** – She tried to overcome her **timid** nature before her job interview.

'starving' can be used in place of " – **'very hungry'**- We distributed food to the **starving** people.

You must try and make use of them while conversing with others.
