Paper Plate Dove

Cut and assemble three paper plates into a lovely 3-dimensional flying dove, to celebrate the International Peace Day.

You will need:

- 1 large paper plate
- 2 small paper plates
- Yellow paper
- Sticky eyes
- String

Instructions:

• Fold the large paper plate in half.

• Make a hole through the centre, and thread through some string. Secure with a knot. This is the body of your dove.

• Cut one of the small paper plates in half. Glue one half to each side of the body to form the wings, varying the angle a little to give the bird dimension.

• To make a tail, cut a segment from the second paper plate and glue inside the folded body.

• Glue on a beak cut from yellow paper and the sticky eyes.
