# Our Neighbourhood

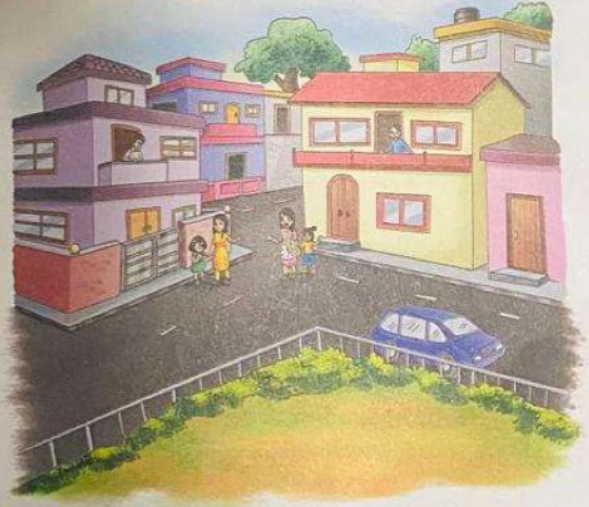

This is Rahul. He is my cousin from Kanpur.

This is Simran. She lives next to my house. She is my neighbour.

Simran and Saina live next to each other. They are **neighbours**. Their houses are surrounded by many other houses. The people living around them are their neighbours.

Neighbours are important to us. They help us in times of need. We should maintain good relations with them.

The places around our house and the people living and working there form our neighbourhood.

## Places in Our Neighbourhood

The places in our neighbourhood help us in many ways. They make our lives comfortable and safe.

We go to the **market** to buy things of daily need.
