X-PLAINED

G-20

WHAT: Saudi King Salman opened the G-20 summit on Saturday, in a first for an Arab nation, with the virtual forum dominated by efforts to tackle the coronavirus crisis, and the worst global recession in decades. The G-20, formed in 1999, is a group of 20 of the world's largest economies that meets regularly to coordinate global policy on trade, health, climate, and other issues.

HOW: G-20 nations have contributed more than \$21 billion to combat the pandemic, which has infected 56 mn people globally and left 1.3 million dead, and injected \$11 trillion to "safeguard" the virus-battered world economy. Countries such as Britain, the US, France and Germany — all G-20 member states — have directly negotiated deals with pharma companies to receive billions of doses, meaning that the vast majority of the world's vaccine supply next year is reserved.

Together, the nations of the G-20 account for around 80% of global economic output, nearly 75% of all global trade, and about two-thirds of the world's population

“ Covid-19 pandemic is a turning point in the history of humanity and the biggest challenge the world is facing since World War II. There should be a global index for the post-coronavirus world based on four key elements — creation of a vast talent pool, ensuring reach of technology to all segments of society, transparency in systems of governance and dealing with Earth in a spirit of Trusteeship
