

BAL BHARATI PUBLIC SCHOOL, PITAMPURA
CLASS III SUBJECT: E.V.S (2020-21)
TOPIC : WATER IN OUR LIVES

NAME: _____ **CLASS III:** ___ **DATE:** 18/01/2021 TO 22/01/2021

LEARNING OBJECTIVES

Each child will be able to

1. List ways of storing and handling water
2. Illustrate the water cycle.
3. Understand the use of Rainwater Harvesting

EXPERIENTIAL LEARNING

Perform an experiment to understand the working of the water cycle.

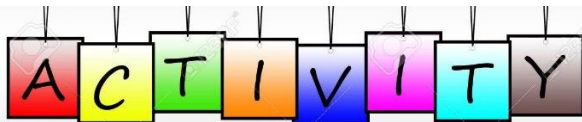

SAFE WAYS OF HANDLING WATER

1. Store water in clean and covered containers

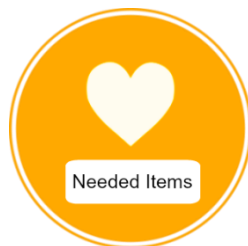

2. Donot use water stored for many days for drinking

3. Use stored water for washing clothes or watering plants

4. Donot put hands in drinking water

The Water Cycle

1. One large bowl
2. One mug or small cup
3. Plastic wrap
4. String or large rubber band
5. Water

**Step
1**

Place the mug or small cup in the center of the bowl. Fill the bowl with water about 2/3 of the way up the cup (do not put water inside the cup).

**Step
2**

Cover the bowl with saran wrap and either tie it with string or place a large rubber band around it to secure the plastic wrap.

Step 3

Place it outside in a sunny area for a few hours.

Step 4

After several hours, observe the bowl. The plastic wrap will have condensation and some of the condensation will have dripped or fallen into the cup/mug.

RAINWATER HARVESTING

TO BE DONE IN THE NOTEBOOK:

a) Write a few ways to store and handle water properly.

b) How can you save water by Rain Water Harvesting?
