

# APRIL ACTIVITIES

## Class II

### WORLD HEALTH DAY

The famous proverb “Health is Wealth” signifies that it is health that is most precious and not money.

On the occasion of World Health day an E assembly was conducted by the students of class 2 on 12.04.2021 for creating awareness among the students to eat healthy and follow a healthy lifestyle.

# EARTH DAY

Our mother Earth has blessed us with a life which we are thankful for. Students took the opportunity to celebrate Earth Day on 23rd April by sharing different things we can do to keep our Earth safe via an assembly. Students were involved in interactive poster making for the same.
