CRITICAL THINKING WORKSHEET

Critical thinking helps to cultivate higher order thinking skills. Think beyond the print. It fills the gap with the 'why' and 'how' questions that one must answer for themselves if they are to internalise, construct and structure their analysis focusing on the topic at hand.

Read the given article published in Outlook on 1 September 2021 and answer the questions that follow.

Scale-up initiatives to set up rainwater harvesting structures: Delhi LG to officials

New Delhi, Sep 1 (PTI) Delhi Lt Governor Anil Bajjal on Wednesday advised officials to incentivise efficient use of water and scale up initiatives to set up rainwater harvesting structures in the city.

Bajjal reviewed the progress of the implementation of "Jal Shakti Abhiyan" and restoration and rejuvenation of water bodies in Delhi during a meeting with top officials, including Delhi Chief Secretary Vijay Dev.

In a series of tweets, the Lt Governor lauded efforts made so far, including setting up of Jal Shakti Kendras, GIS Mapping of water bodies, documentation, and revival of water bodies, and emphasised on maintenance of watershed area of these bodies.

"The officials were advised to put in place appropriate mechanisms of incentives and disincentives to promote efficient use of water and curb wastage of water besides scaling up initiatives for setting up rainwater harvesting structures," he said in a tweet.

He also suggested the use of innovative techniques for recycling of water for non-potable purpose and fixing activity-wise timelines and regular monitoring for better results and timely completion of the projects.

Q1) Imagine if you had only 2 buckets of water for a day, create a water budget to strategies the consumption of this water.

Q2) Suggest any two solutions that can be adopted to reduce daily water consumption.

Q3) Design a campaign promoting the cause of rainwater harvesting.
