HOLIDAY HOMEWORK

SESSION 2022-23

CLASS IV

Dear Children

The holiday season is the perfect time to relax and reflect on the blessings in our lives besides working towards enhancing our skills. This year, we have tried to keep the Holiday Homework simpler yet informative and more interesting. The intent is to promote not only academic learning through interesting assignments but also activities which can gradually become hobbies.

Here are a few suggestions for you:-

- Make sure to spend quality time with your family.
- Help your mother in the household chores.
- Read interesting books and watch good English programmes.
- Play indoor games with your family.
- Follow the instructions given by your teachers and try to complete your HHW independently.

Take care and stay safe !!

SCIENCE

Dear Children,

'Good Food' is equivalent to 'Good Mood' and travelling becomes more fun if we get to taste the delightful local cuisine of that place. So, let's explore the world-famous food through the link given below and enjoy the activities that follow.

Activity 1 Food Vlogger

Do you think of some other dish which could be included in the video? Make a 'Vlog' on that dish, sharing its recipe, the ingredients used, their nutritive value and fun facts about its native country.

Note: A Google Classroom Assignment will be created for you to upload your work.

Activity 2 Food Guide

Make a small booklet showcasing any two countries of the world. You can include information regarding their cuisine, staple food, national parks and wildlife sanctuaries. To make it more informative, make a picture collage of famous places to visit along with some fun facts.

World Environment Day

Nesting Birds- An Initiative by Gardening Club and Green Warriors

As per the experts, making nests from scrap can attract sparrows in the urban areas (Refer HT PACE Edition, March 22, Pg. 05). Let's contribute to this and create a home for the little creatures. You may use materials like jute, wood, tetra packs, twigs, cardboard boxes, etc. Remember to click your pictures of work in progress and of the final product placed in your balcony to upload on Google Classroom.
