

PRE – PRIMARY DEPARTMENT PROJECTS (2021-22)

WORD OF THE WEEK

The more words you know, the more clearly and powerfully you will think...and the more ideas you will invite into your minds.'

With the aim of enriching the vocabulary of our students and honing their communication skills, an initiative 'WORD OF THE WEEK' has been started across all departments. One age-appropriate word/idiom/phrase is shared along with its meaning, pronunciation and usage with the students on a weekly basis. The students and all subject teachers are encouraged to use the word as often as they can and make it a part of their active vocabulary.

During the summer vacation, the students across all classes were given an access to a Digital Library to read any book on their tab, PC or smartphone. The parents and students really appreciated this initiative.

DIGITAL LIBRARY

Several activities are organized on a regular basis to keep our students across all classes connected with the world of books and motivate them to read more :

- Online Library Classes
- Story Telling Sessions by renowned storytellers
- Reading Day/Week
- Virtual Book Fairs
- PDFs of the books by some of the renowned authors like Enid Blyton, Ruskin Bond, Roald Dahl are shared with the students. Online quizzes and worksheets based on books are attempted by the students.

WESTERN DANCE CLASSES

'Dancing stimulates the mind, body and soul-That is the Miracle of Dance.'

- When you dance, it releases dopamine, oxytocin, serotonin, and endorphins, neurotransmitters and hormones in your brain that are commonly linked with happiness and well-being. With an aim to help the students rejuvenate and be stress-free during these tough times, Western Dance Classes have been started in Classes I and II. The same are held once a week for each class. The students have been participating in these classes most enthusiastically.

SCI BUZZ

To ignite the scientific fervour in young minds, to provoke their curiosity and enhance their understanding of the various why's and how's of the world around us, a scientific fact is shared across all classes every Friday under the title 'Sci Buzz'. The same is done in the form of an interesting creative.

TED talk videos are shown to the students of Class II during the Class Teacher's Period every fortnight to discuss topics such as 'Importance of Reading', 'Importance of Family', etc. During the discussions, students share their experiences and opinions.

NEWSPAPER IN EDUCATION

A newspaper is a window to the world. To bring the world to the classroom, the discussion of the newspaper has become a regular activity during Class Teacher's period (CTP) in classes III to VIII. The practice keeps the students updated about the various social, political, and environmental issues in the world and also helps them enrich their vocabulary.

VIRTUAL TOURS

A wonderful resource that can make the learning experiences authentic and enticing to the students, are the Virtual tours. Virtual Tours enrich their knowledge and make the teaching-learning process livelier and more interesting. The students across all classes are often taken on such tours to the places related to their lessons in varied subjects.
