## ACTIVITIES

### ACTIVITY-1

#### *Rag to Riches*

Recycling is the process of collecting and processing materials that would otherwise be thrown away as trash and turning them into new products. So, let's look around and collect few waste items in our home like coke can, empty toothpaste box, shoe box, plastic bottles, glasses bottle caps etc.

Recycling and reusing the valuable waste material can result in development of fantastic and usable products. Rather than putting these waste materials into the landfills, various innovative and creative ideas can be put together to bring something new and useful.

In these vacations sit with your grandparents and create something magical with these waste items.

e.g. paper bag, pen holder, plastic bottle pots etc.
