

## Our Guiding Light...

## Principal's message

### From the Principal's Desk

Realizing the need to create scientific temperament and cultivate the spirit of curiosity and innovation among young minds, Atal Innovation Mission proposed to support the establishment of a network of Atal Tinkering Laboratories (ATL). Bal Bharati Public School, Pitampura was selected for this grant in January 2018 and the ATL became functional in our school from September 2018. We at Bal Bharati have always intended to foster curiosity, creativity, and imagination in young minds and inculcate skills such as design mindset, computational thinking and so on which has now become all the more imperative and relevant as we drift from 'normal' to the 'new normal'.

My heart swells with pride as I reflect upon the umpteen accomplishments of our students in various competitions and projects undertaken by them under this banner. Our students traversed all the boundaries and used this platform to exploit their potential, exhibit their skills and talent by excelling in almost all the activities and projects undertaken by them. The activities included in this project have paved a way for the logical and technical advancement of their mental faculties. Through this e-newsletter we take you on a virtual tour of the areas of technical enhancement of our staff and students who have taken a big leap to keep themselves abreast with the changing times. Even though this year of pandemic has taken us through trying times, it cannot be denied that it has been a harbinger of new avenues and possibilities in the world of education for both students and teachers. The entire year has been a saga of accomplishments, awards and accolades. Setting up of ATL has been a milestone and I look forward to more such opportunities in the years to come as said by Brooke Griffin, "We can continuously improve who we are and what we are capable of achieving. Each challenge is an opportunity to grow stronger."

# Techno Torch Bearers

**Ms. Namrata Alwadhi**

**Ms. Namrata Alwadhi** has successfully completed a certificate course on Ethics and Leadership in Technology & Innovation organized by AIM and The Global Education & Leadership Foundation for Atal Tinkering Lab. held from 1<sup>st</sup> to 26<sup>th</sup> February 2021. She has also completed a certificate course on 'Augmented Reality' organized jointly by Facebook and CBSE.

**Ms. Beena S. Nair**, HOD Computer Science Dept., completed the Microsoft Technology Associate Certification Course. This is a certification that validates fundamental technology skills and knowledge in Microsoft Products. She is also a Minecraft Certified Educator.

**Ms. Beena S. Nair**

**Ms. Preeti Khanna**

**Ms. Preeti Khanna** cleared the Microsoft Certified Educator Exam and earned the badge for the same. This certification is based on the 21CLD and Innovative Teaching & Learning Research which provides a set of rubrics for educators to identify and create learning opportunities for students to build 21<sup>st</sup> Century Skills. She has also successfully completed the Wakelet Certified Course from ADOBE Learning and is a Wakelet Certified Educator in addition to Minecraft Certified Educator.

**Ms. Suchita Joon** has successfully completed a Professional Development Course from ADOBE on how to cultivate the four essential skills of Creativity, Communication, Critical Thinking, and Collaboration among students. She has also successfully completed the Wakelet Certified Course from ADOBE Learning and is a Wakelet Certified Educator. She has also earned the Minecraft Certified Educator Badge and Flipgrid Certified Educator Level 1 Badge from Microsoft.

**Certificate of learning path completion**

**Ms. Suchita Joon**

**Ms. Tanu Jain** qualified the Microsoft Certified Educator Exam and got the badge for the same. This certification is based on the 21CLD and Innovative Teaching & Learning Research. She also earned the Minecraft Educator and Flipgrid Certified Educator Level 1 Badge from Microsoft.

**Ms. Tanu Jain**

## 'INNOVATION AMBASSADOR PROGRAM'

CBSE in collaboration with the **Ministry of Education's Innovation Cell and AICTE** is conducting an online program called 'Innovation Ambassador Program'. In this program, five teachers from each school are being trained on the Design Thinking & Innovation, Idea generation, Intellectual Property Rights and Product / Prototype Development.

The teachers participating from our school are:

Ms. Namrata Alwadhi, Ms. Beena Nair,  
Ms. Preeti Khanna, Ms. Neelam Malik,  
Ms. Anjani Sareen

## ARTIFICIAL INTELLIGENCE FOR ALL

A number of teachers from our school participated and earned badges and certificates in the **AI for All Program** conducted by CBSE and Intel.

All the teachers of Computer Department along with 27 teachers of Middle and Secondary Department have completed the 15-day's **Plezmo App. Development Course** and received certificates of appreciation for the same.

Many teachers of our school have undertaken the Adobe Creativity for All Course and submitted an online assignment on Adobe Spark. They received the **Adobe Creative Educator Level 1 & 2 Badge**.

ANSHUL MAHAJAN

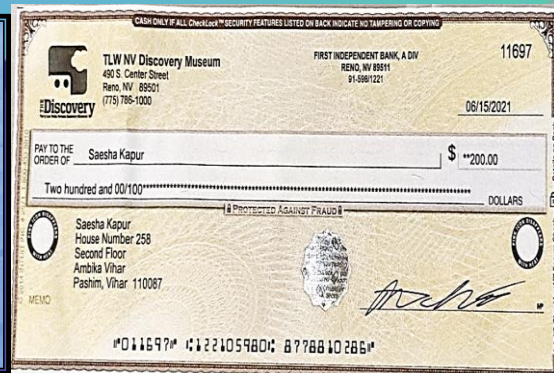

WINNER: UNIVERSITY OF TORONTO AWARD AT IRIS 2020-21

**Anshul Mahajan** of class XII received the University of Toronto Special Award at the prestigious Initiative for Research and Innovation at STEM (IRIS) National Fair 2020-21 on 2<sup>nd</sup> April 2021 for his research project on Generative Adversarial Networks and MRI scans. He was offered a full scholarship to participate in the Global Engineering Challenge organised by the University of Toronto, Faculty of Applied Sciences and Engineering.

**Saesha Kapur** of class IX won the Award in Non-Local Category and received a cash prize of 200 US\$ on 15<sup>th</sup> June 2021 in a Scratch Code Challenge in association with Microsoft organized by Discovery Museum of Nevada, USA.

Saesha Kapur

Suhan Grover

Parth Khurana

Our school team comprising of **Suhan Grover** and **Parth Khurana** of class VIII participated in ATL Marathon 2020. Their Innovation- '**Digicyber Exams**' has been shortlisted among the top 300 innovations out of the 7200 teams who had participated in the event from all over the country. Their idea is to develop a software which will allow students to take online exams from home without any scope of cheating. The AI based software will prohibit the examinees from switching screens, thereby eliminating all scope of cheating in online mode.

ROHAN JONEJA

'**Innovation in Science Pursuit for Inspired Research**' (INSPIRE) scheme is one of the flagship programmes of the Department of Science and Technology (DST), Government of India. The INSPIRE MANAK (Million Minds Augmenting National Aspirations and Knowledge) Award aims to motivate students in the age group of 10-15 years with an objective to target one million original ideas/innovations rooted in science and societal applications to foster a culture of creativity and innovative thinking among school children.

AADITYA JINDAL

**Rohan Joneja** (class VIII) and **Aaditya Jindal** (class X) have been selected for the prestigious **Inspire Manak Award** for their projects on 'Safe Emergency Exit' and EROS (Emergency Response Operating system) respectively. They will receive a grant of Rs. 10,000 each for creating a prototype of their innovative ideas and will exhibit their work at the district level exhibition to be held shortly.

Prathi Nidheesh R Gupta

**Prathi Nidheesh R Gupta** of class V received the 'Certified Full Stock Developer' title with – Core Programming Skills, Design Thinking & Advanced AI App. Development Skills from White Hat Jr.

Our  
emerging  
Heros

**Madhav Dhingra**, a student of class VIII made the school proud with his acting prowess. He recently shot an advertisement for Digi Health App. commercial with the seasoned television and film actor Shivaji Satam (best known for his role of ACP Pradyuman in the popular TV series C.I.D)

Madhav Dhingra

## Certificate

BI Young Scientists Talent Virtual Fair - June 2021

Best Digital Presentation

On this date 15 JUL 2021. This certificate is being proudly presented to **ARYAN VERMA** of Class - 6TH, Section - G, of **BAL BHARATI PUBLIC SCHOOL, PITAMPURA**. For participation in the Theme **TECHNOLOGY** and Grade Category **GRADE 6TH-8T**

His / Her outstanding performance is well recognised and appreciated.

Gaurav  
Academic Head  
(Gaurav Ghosh)

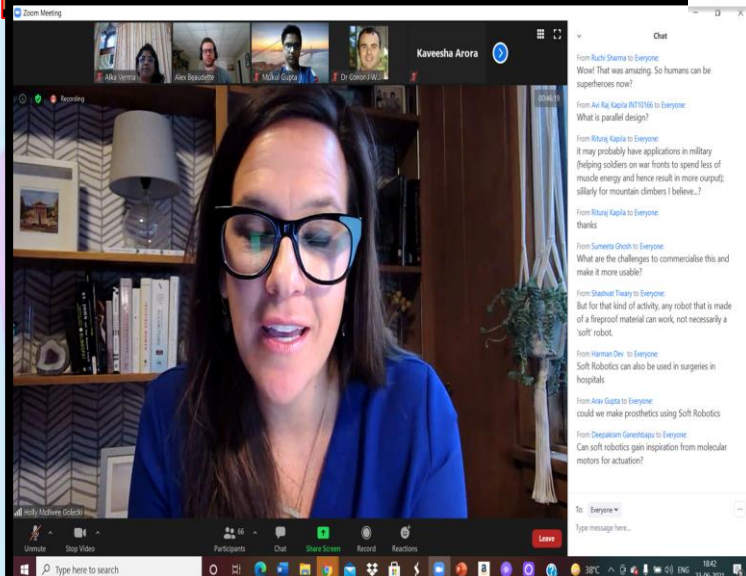

Pankaj Aggarwal  
President & CEO  
(Pankaj Aggarwal)

Ashish Ja  
(Ashish Ja)

**Aryan Verma** of class VII won the 'Best Digital Presentation Award' (pan India) in the Virtual Science Fair hosted by Bridge Intelia. The project was based on the theme 'Biodiversity'. It was shortlisted out of thousands of innovations.

Ten students from classes VII-IX collaborated with The Lakshmi Mittal South Asia Institute, Harvard University for **Soft Robotics Toolkit Programme**. Four videos depicting their work were shown at the Closing Ceremony of the programme held on 23<sup>rd</sup> June 2021 and were highly appreciated.

**Ms. Alka Verma** and **Ms. Anjani Sareen** were awarded a gift voucher of Rs. 13,300 each as a token of appreciation for successfully collaborating with them for the project.

## Soft Robotics Toolkit Pilot Competition

This award is presented to:

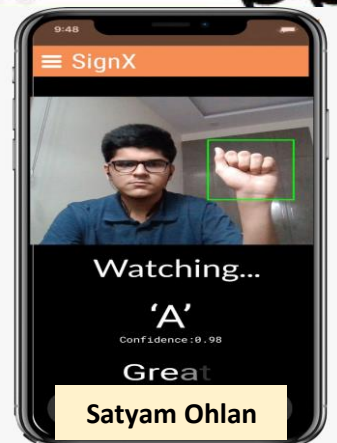

**Kaveesha Arora**  
Bal Bharati Public School

**Best Overall**

Celebrates overall achievement in concept presentation, engineering design process, and execution.

**Kaveesha Arora** of class VIII was awarded for **Best Overall Achievement** in **Concept Presentation, Engineering Design and Execution**.

The Ministry of Education (MoE) along with Atal Innovation Mission, NITI Aayog conducted 'Virtual event on Assistive Technology Innovations for Inclusive Education' on 17<sup>th</sup> Jan. 2022. The event focused on the start-ups and innovations that enhance and aid the learning of children with special needs such as assistive technology, remedial teaching technology and so on. **Satyam Ohlan** of class XI represented his **project Sign Language Translator** in front of a distinguished panel of officials from the Ministry of Education.

Six students (2 each from classes VIII, IX and X) were selected for a 15-days **AI Readiness Bootcamp** organised by AI for Youth, an initiative by CBSE-Intel from 11<sup>th</sup> to 27<sup>th</sup> August 2021. The students were selected after a rigorous process of an All India level. The students learnt complex concepts of AI in this bootcamp.

# TECH PANDAS

Our school was acclaimed as one of the Top 100 institutes in the **AWS Young Builders Challenge 2021**, held at the National Level. Aayan Sardana of class VIII received AWS branded goodies and an Amazon voucher worth ₹5000 for an App. created by him.

**CONGRATULATIONS TO**  
**AAYAN SARDANA**  
 for finishing in the Top 100 Schools category in the AWS Young Builders Challenge 2021.

## VIRTUAL TOURS

In the hybrid classroom, we have a treasure of resources that can assist in making our teaching and learning experiences authentic and enticing to the children. These resources also include Virtual Tours. With an aim to deepen their knowledge and make teaching-learning process more life-like and interesting, students are taken on these virtual tours related to their lessons in all subjects.

# OPULENT MOMENTS

Assemblies are always an important and integral part of a school life. During the lockdown, virtual assemblies and newsreels helped students remain tethered to the real world. While getting the feel of being a part of normal school life, virtual assemblies also gave them a platform to upgrade their technical skills as these assemblies were prepared exclusively by the students for all classes on a weekly basis.

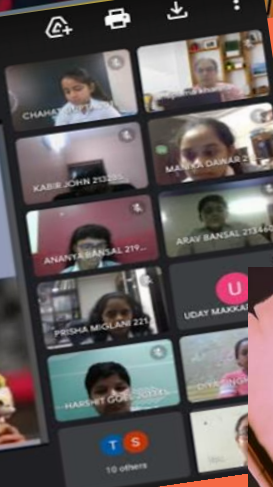

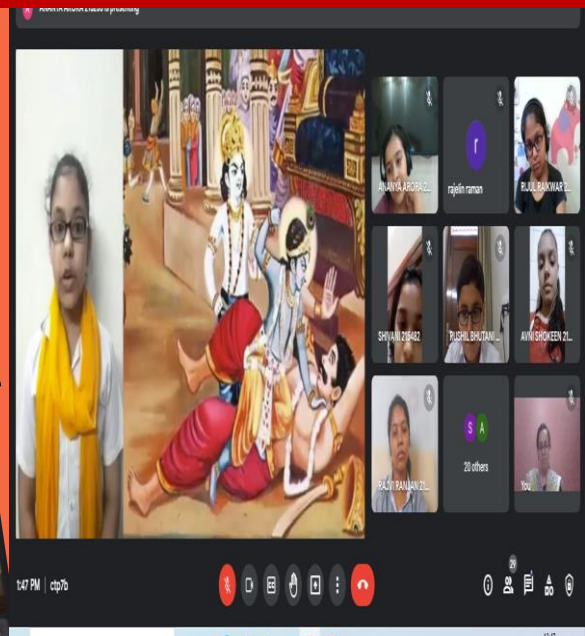

**NEWS REELS**

*Class Assembly Of 6C*

**VIRTUAL ASSEMBLIES**

**INTERSTATE COLLABORATION**

**ONLINE CELEBRATIONS**

# THE GREEN TECH

## THE SCHOOL CONNEXION

The digital newsletter of the school - *The School Connexion* was released in four parts on several digital platforms (WhatsApp groups, school website, official Facebook and Instagram page of the school) in April 2021. The newsletter was a compendium of the activities and achievements of all departments during the previous quarter.

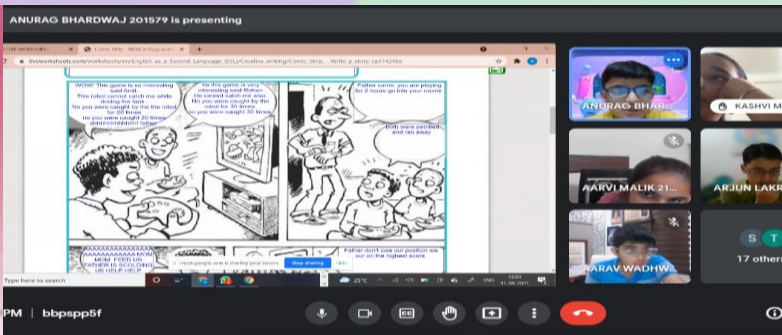

## VIRTUAL BOOK FAIRS

During Summer Vacation all the students were given an access to the Digital Library so that they could read books on their tablet, PC or smartphone. This initiative was highly appreciated by parents. Also, various activities are organized on a regular basis to keep the students connected to the world of books and to motivate them to read more. Some of these are:

- Online Library Classes
- Story Telling Sessions by renowned storytellers
- Reading Day/Week
- Virtual Book Fairs
- Online quizzes and worksheets based on books.
- PDFs of the books by some of the renowned authors like Enid Blyton, Ruskin Bond, Roald Dahl are also shared.

## DIGITAL LIBRARY

# Do It Now

In the present scenario, the need of the hour is to use the technological tools and applications safely and optimally. The Computer Department has initiated **TECH TOOL TIP OF THE MONTH** wherein a useful tech. tip is shared with the staff and the students every month.

## TTT TECH TOOL TIP

### AN EASY WAY TO CONVERT IMAGES / HANDWRITTEN TEXT TO PDF / WORD / POWERPOINT / EXCEL FILE

1. Install Office Lens on your device, run the app, then give it permission to access your camera.
2. The default "view" in the app is a live camera viewfinder. Choose one of the three available image types -- Photo, Document or Whiteboard -- then point the camera at whatever you want to capture. You can also scan QR code also in the type section.
3. For documents and whiteboards, you'll see the app attempt to automatically frame the image as you move around. Once the frame encompasses the desired area, tap the shutter button.
4. After a moment of processing the image, Office Lens gives you a preview of it. If it needs cropping, tap the Crop icon in the upper-right corner. Once you're done cropping, or you're just ready to save the image, tap Done.
5. You can crop or insert a text into the scan document and convert into document and table, click on done to save.
6. You can save to your One Drive or local after that you can use immersive reader to read paragraph.

## TTT TECH TOOL TIP

### How to change the "Undo Send" setting in Gmail

1. Open your Gmail account on a desktop browser.
2. Click on the gear icon in the top right corner to open the settings menu.
3. Scroll down to the "Undo Send" section.
4. Check the "Undo Send" checkbox to enable the feature.
5. Select a duration for how long you want to keep a copy of your sent messages (e.g., 5, 30, or 60 seconds).
6. Click on "Save Changes" at the bottom.

Happy and Safe E-Mailing!!

## TTT TECH TOOL TIP

### How to Crop/Compress Image and convert to PDF

1. Use of Snipping Tool / ScreenSnip
2. Use Paint .Net for compress and crop
3. Use of online tools for compressing images
4. How to make a PDF of Images?

Enjoy You are a champion now

## Cyber Etiquette

Technology has changed our lifestyle, the way we work and learn. In the present scenario where the thin line between our online and offline worlds continues to merge and blur, it's all the more important to educate students about digital citizenship and internet safety. In this regard various programmes to educate the students are undertaken from time to time.

## DIGITAL AMNESIA

"A phenomenon where our brains are fast losing their ability to remember as we become increasingly reliant on technology to retain data."

Many people don't worry about remembering phone numbers, special birthdays or anniversaries anymore; after all, they're just a cellphone away.

Smartphone addiction can interrupt sleep. We need deep sleep to detoxify our brain. It is only then that the brain engages in synaptic pruning – making room for new information by pruning old information. When we have interrupted sleep, synaptic pruning cannot take place, thus, impairing our ability to retain new information and form new memories.

82% of Parents Couldn't Recall Their Child's Number in an Emergency

Men are 1.75x more likely to not be able to recall their child's phone number.

63% of Men and 37% of Women Forget their child's phone number.

## Tips to overcome Digital Amnesia

- Ensure that you do not carry your mobile phone to bed at night.
- Instead of using GPS everywhere, print Google direction maps and try to get to the destination.
- Observe a screen-free day at least one day a week.
- Turn off notifications and uninstall/offload all non-essential apps.
- Potential risks to the brain can be minimised by using headphones or loud speakers while calling, especially when network quality is low and the mobile phone is functioning to its maximum potential.

## Safe Social Networking Tips

- DO YOUR PRIVACY SETTINGS VERY CAREFULLY ON SOCIAL NETWORKING SITES.
- AVOID POSTING YOUR PLANS AND ACTIVITIES ON NETWORKING SITES.
- DO NOT POST YOUR FRIENDS' INFORMATION ON NETWORKING SITES. IT MAY PUT THEM AT RISK.
- COMMUNICATE AND COLLABORATE ONLY WITH PEOPLE KNOWN TO YOU.

## HOW TO IDENTIFY THREAT AND ASSESS RISK?

- Slow and sluggish behavior of the system and appearance of the infamous BSOD (Blue Screen of Death).
- Appearance of unusual messages or programs which start automatically.
- Drainage of system battery life before expected period.
- Navigation to new browser homepage, new toolbars and/or unwanted websites without any input.

LET'S BE SAFE EVERY DAY!

## INTERNET SAFETY AND ETHICS

1. Respect other people's privacy.
2. Follow proper protocol in language use while chatting, blogging and emailing.
3. Do not log in to other people's email accounts.
4. Do not download and use copyrighted material.
5. Enable automatic browser update to ensure detection of malicious sites.

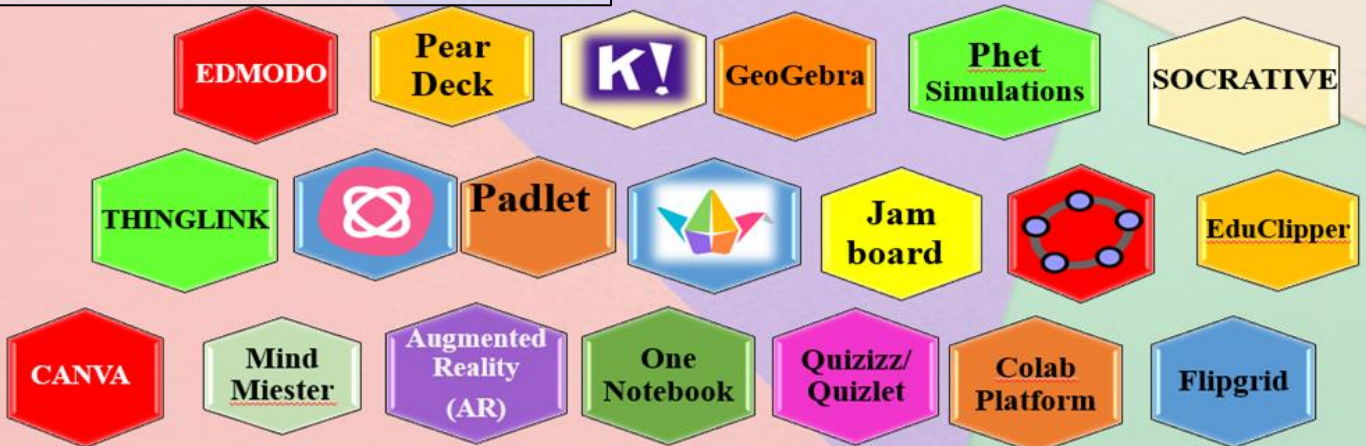

# Tech Stride

The IT Skill Enhancement Program for teachers, Tech-a-Thon, initiated in January 2021, is going on successfully with regular weekly sessions conducted online. The staff members have been divided into groups namely; Alpha, Beta and Gamma who receive hands-on experience during these sessions. These sessions are taken every Saturday by the members of the Computer Science Department on latest tech tools like Wakelet, OneNote, Google Forms-Updated Settings, Canva and so on.

## ONLINE TOOLS

The teachers are constantly engaged in adopting new technological tools to make the teaching learning process more fruitful and interesting for the students. To promote learning, the teachers have been trained on softwares and tools like Adobe Spark, Flipgrid, TutAR, Microsoft Sway, Canva, Google Earth, OMR Solution software etc. by organising webinars for them.

## PINNACLE CLUB

If you're stuck somewhere with a smartphone battery,

Juice Jacking!

Greetings! Today, as a member of the Pinnacle Club, I will explain the crux Juice-Jacking, in just 90 seconds.

So, the next time, you don't fall prey!

Our first video explains Juice Jacking which is related to charging mobile phones at public booths.

Initiative:

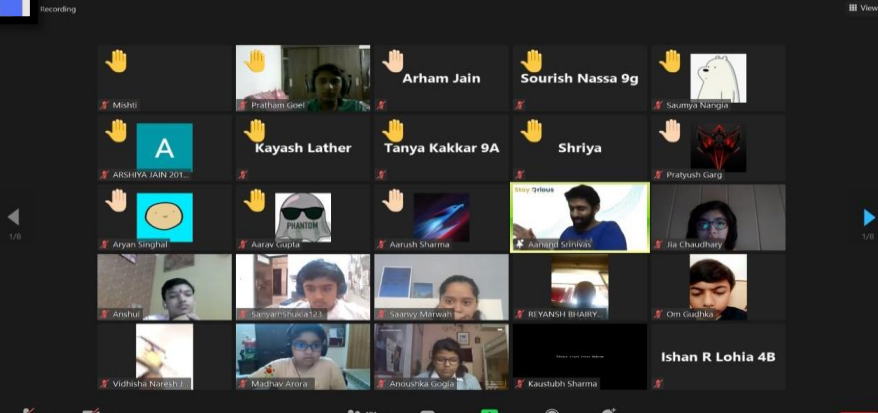

## Cyber-ness!

Raising awareness of cyber-crimes through an interesting video series.

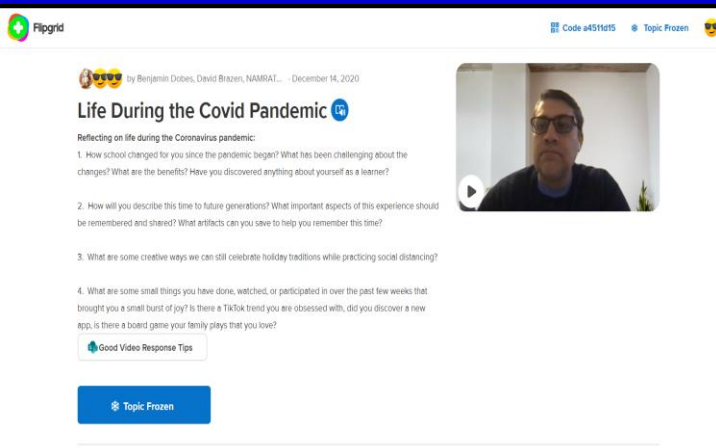

The best part... The videos educate viewers within 90 seconds.

The **Pinnacle Club** of our school created a video on the topic 'Juice Jacking' which highlighted the risk of data hacking while charging the mobile phones at public booths. This video was shared with students of classes VI –IX to increase awareness so that they do not fall prey to data hacking.

An interactive peer to peer workshop was conducted on 21<sup>st</sup> August 2021, by the students of class X for the students of class VI. The session provided the learners a hands-on experience of **App.-building** using the tool **MIT App. Inventor**.

## FLIPGRID SMART COMMUNITY

The Senior students of our school participated in an **International Flipgrid collaboration** with **JS Morton High School in Cicero, Illinois, US**. The topic of the Flipgrid was 'Life in Covid Times'. The students participated in it by uploading their videos on Flipgrid, voicing their opinions and sharing their experiences during Covid.
