

## Excursions & Tours (2017-2020)

The world definitely stretches beyond the boundaries of a text book and we at BBPS , Pitampura advocate just that. Running parallel to academics is our mission to accomplish holistic education of our students. Planned expeditions and Study tours form an integral part of our programme as these intend to break down the set structures created by classroom teaching, exposing our students to a reality outside their limited experience so that they may learn to cope with unexpected difficulties and in the process, mature.
