

PARENT ORIENTATION DAY

PRESCHOOL

One of the most important challenges of the school is to orient and enlighten the new set of parents of Preschool who come to school with aspirations and dreams for their child.

A well-structured programme was conceived for the session 2024-25 on 26th March 2024

A PowerPoint Presentation enlightened the parents about the well-balanced age appropriate Curriculum, the activities that are under taken to develop the holistic development of the children. The respective class teachers discussed school policies and procedures. Parent orientation kits and handouts on importance of Pre Writing Skills and strategies for Smooth Transition for children were distributed.

An informal interactive session was carried out to let parents share their thoughts and feelings on their child's first day of formal school.

ADAPTATION WEEK PRESCHOOL

Adaptation week was organized for our little preschoolers from 27th to 30th March 2024 which is an important step in their educational journey as they enter preschool. The objective was to provide them with a stress free environment and getting them used to new preschool and settling them in classroom without their parents. Emphasis was laid on relationship building, routines and rules of the school. Each day was planned with fun filled age-appropriate activities keeping in mind all the Developmental domains. Children enjoyed watching magic show and the In-house story telling sessions conducted by the teachers. A play date was specifically organized where they had fun playing with dolls, exploring the ball pool and building with blocks at the different centres created for them. Many art jam activities like rainbow printing, scribbling and their first hand impression were designed for them. They were excited to carrying their first hand print back home for their parents to cherish for a lifetime. Gift and goodies were given to them and children relished mid-day meals with their classmates
