SECONDARY DEPARTMENT PROJECTS (2024-25)

NATIONAL CREDIT FRAMEWORK PILOT PROJECT (2024-25)

Our school has been nominated for the National Credit Framework (NCrF) pilot project for 2024-25. It has been introduced as a unified credit system for CBSE schools in Classes VI, IX, and XI.

Students will need to earn 40 credits yearly by completing 1200 notional learning hours across various activities, including classroom teaching, sports, arts, and vocational training.

Mandatory assessments will ensure progression, and credits will be recorded in the Academic Bank of Credit linked to the student's APAAR ID and DigiLocker.

HYBRID LEARNING

Hybrid Learning is an innovative initiative that aims to strike a balance between self-study and technology-facilitated online live sessions. As decided by the Advisory Council, this educational approach has been initiated for Class XI, with online classes being scheduled every Friday
