WORLD ENVIRONMENT DAY

World Environment Day was observed on 05th April 2025 to sensitize preschoolers about keeping the environment clean. They participated in the Cleanliness Drive, picked up bits of paper, litter and put in the trash bin.

COLLABORATIVE ARTWORK

Teaching children to be in community, to connect and communicate with one another, these are the skills we need to move forward toward a healthier, more equitable and just world. Preschoolers were engaged in an exciting hands-on collaborative artwork. Children had fun stamping and splashing colours using rolling pin and spatula.
