MAY ACTIVITIES PRE PRIMARY

WORLD ENVIRONMENT DAY

Pre Primary children celebrated World Environment Day on 6.5.25. They were briefed about the importance of keeping the environment clean. Children identified and segregated dry and wet waste into designated bins.

COLLABORATIVE COLLAGE

Teaching children to be in community, to connect and communicate with one another, these are the skills we need to move forward toward a healthier, more equitable and just world. Pre Primary children were engaged in an exciting hands-on collaborative artwork. They pasted small cut outs of coloured paper to form their own unique collage, adding one piece at a time and this is what they created together.
